IMPACTS 18

The Neighbourhood Survey 18

Liverpool John Moores University and the University of Liverpool are together carrying out research on the long-term effects of Liverpool's year as European Capital of Culture in 2008.

To support this research, the universities have commissioned a survey that asks about your own personal views of the city and how your neighbourhood – and the city more widely – have changed in the decade since the European Capital of Culture took place.

The survey can be answered by any adults [i.e. those aged 18 and over] who usually live at this address. If you are happy to participate, the survey should only take around 20 minutes to complete.

Further details on how the information you provide will be used by the universities, and on your legal rights in relation to this information, are outlined in more detail on this accompanying notice sheet. If you are happy to participate, could you please read the following statement for me and tick accordingly?

I have read the information sheet provided and I am happy to participate. I understand that by completing and returning this questionnaire I am consenting to be part of this research study and for my data to be used as described in the information sheet provided.

[If prospective respondent replies that they are not eligible due to residing outside the city in 2008.]

You do not need to have been living in the city in 2008 to complete the survey.
